The IEEE Conference on Evolving and Adaptive Intelligent Systems (**IEEE EAIS 2024**) will be held in the center of **Madrid City**, in the Puerta de Toledo Campus - Carlos III University of Madrid (UC3M), Spain.

IEEE EAIS 2024 will be a significant international forum with an emphasis on the discussion of recent developments, the exchange of recent innovations, and the identification of open, future challenges in this field. IEEE EAIS 2024 is seeking original papers from Researchers from industry, academia, and government organizations. Authors of selected papers will be invited to submit extended versions for possible inclusion in a special issue of the *Journal of Evolving Systems (Springer)*.

Topics of interest for submission include, but are not limited to: **link**

Special Sessions

SS1: Model Explainability and Online Learning from Uncertain Data Streams.

SS2: Recent Advances on Text and Document Streams (Third Edition).

SS3: Advances in Fault Detection, Prediction, and Control.

SS4: Graph Neural Networks for Real-World Data.

SS5: Adaptive Technologies & Applications in Intelligent Transportation Systems.

SS6: Generative AI and Applications.

SS7: Advances in Evolving and Adaptive Fuzzy Cognitive Maps.
